THE
BIOLOGICAL BULLETIN

PUBLISHED BY
THE MARINE BIOLOGICAL LABORATORY

Editorial Board

JOHN M. ANDERSON, Cornell University
JOHN B. BUCK, National Institutes of Health
DONALD P. COSTELLO, Woods Hole, Massachusetts
JOHN D. COSTLOW, Duke University
PHILIP B. DUNHAM, Syracuse University
CATHERINE HENLEY, National Institutes of Health
MEREDITH L. JONES, Smithsonian Institution
GEORGE O. MACKIE, University of Victoria
RALPH I. SMITH, University of California, Berkeley
F. JOHN VERNBERG, University of South Carolina
CARROLL M. WILLIAMS, Harvard University
EDWARD O. WILSON, Harvard University
W. D. RUSSELL-HUNTER, Syracuse University
Managing Editor

VOLUME 153
JULY TO DECEMBER, 1977

Printed and Issued by
LANCASTER PRESS, Inc.
PRINCE & LEMON STS.
LANCASTER, PA.

THE BIOLOGICAL BULLETIN is issued six times a year at the Lancaster Press, Inc., Prince and Lemon Streets, Lancaster, Pennsylvania.

Subscriptions and similar matter should be addressed to The Biological Bulletin, Marine Biological Laboratory, Woods Hole, Massachusetts. Agent for Great Britain: Wheldon and Wesley, Limited, 2, 3 and 4 Arthur Street, New Oxford Street, London, W. C. 2. Single numbers, $8.00. Subscription per volume (three issues), $22.00.

Communications relative to manuscripts should be sent to Dr. W. D. Russell-Hunter, Marine Biological Laboratory, Woods Hole, Massachusetts 02543 between June 1 and September 1, and to Dr. W. D. Russell-Hunter, P.O. Box 103, University Station, Syracuse, New York 13210, during the remainder of the year.

Second-class-postage paid at Lancaster, Pa.

LANCASTER PRESS, INC., LANCASTER, PA.

CONTENTS

No. 1, August, 1977

Annual Report of the Marine Biological Laboratory 1

Anderson, D. T. and C. Lawson-Kerr
The embryonic development of the marine caddis fly, *Philanisus plebeius* Walker (Trichoptera: Chathamidae) 98

Ball, Eric G.
Carotenoid pigments in the coxal gland of *Limulus* 106

Berrill, N. J.
Dwarfism in a sabellid polychaete, a study of an interstitial species 113

Brown, Stephen C.
Biomechanics of water-pumping by *Chaetopterus variopedatus* Renier: kinetics and hydrodynamics 121

Kellogg, Charles W.
Coexistence in a hermit crab species ensemble 133

Kunkel, Joseph G.
Cockroach molting. II. The nature of regeneration-induced delay of molting hormone secretion 145

Latz, Michael I. and Richard B. Forward, Jr.
The effect of salinity upon phototaxis and geotaxis in a larval crustacean 163

Mackie, G. O. and Q. Bone
Locomotion and propagated skin impulses in salps (Tunicata: Thaliacea) 180

Martin, Vicki J. and Mary Beth Thomas
A fine-structural study of embryonic and larval development in the gymnoblastic hydroid *Pennaria tiarella* 198

Michelson, E. H. and Lorin Dubois
Agglutinins and lysins in the molluscan family Planorbidae: a survey of hemolymph, egg-masses, and albumen-gland extracts 219

Pardy, Rosevelt L. and Brian N. White
Metabolic relationships between green hydra and its symbiotic algae ... 228

Worley, E. K., D. R. Franz, and G. Hendler
Seasonal patterns of gametogenesis in a North Atlantic brooding asteroid, *Leptasterias tenera* 237

No. 2, October, 1977

Berger, Edward
Gene-enzyme variation in three sympatric species of *Littorina*. II. The Roscoff population, with a note on the origin of North American *L. littorea* 255

DeBenedictis, Paul A.
Studies in the dynamics of genetically variable populations. II. Growth of experimental populations of *Drosophila melanogaster* experiencing intense natural selection 265

GREENBERG, SHARON L. AND JOHN G. STOFFOLANO, JR.
The effect of age and diapause on the long-term intake of protein and sugar by two species of blowflies, *Phormia regina* (Meig.) and *Protophormia terraenovae* (R.D.) 282
HOLLAND, NICHOLAS D.
The shaping of the ornamented fertilization membrane of *Comanthus japonica* (Echinodermata: Crinoidea) 299
INNES, DAVID J. AND LESLIE E. HALEY
Genetic aspects of larval growth under reduced salinity in *Mytilus edulis* 312
O'DOR, R. K., R. D. DURWARD AND N. BALCH
Maintenance and maturation of squid (*Illex illecebrosus*) in a 15 meter circular pool 322
PAN, M. L.
Juvenile hormone and vitellogenin synthesis in the Cecropia silkworm .. 336
PEARSON, WALTER H. AND BORI L. OLLA
Chemoreception in the blue crab, *Callinectes sapidus* 346
PURCELL, JENNIFER E.
Aggressive function and induced development of catch tentacles in the sea anemone *Metridium senile* (Coelenterata, Actiniaria) 355
SEN GUPTA, A.
Calcium storage and distribution in the digestive gland of *Bensonia monticola* (Gastropoda: Pulmonata): a histophysiological study 369
SINGER, SARA C. AND RICHARD F. LEE
Mixed function oxygenase activity in blue crab, *Callinectes sapidus:* tissue distribution and correlation with changes during molting and development 377
STUNKARD, HORACE W.
Studies on tetraphyllidean and tetrarhynchidean metacestodes from squids taken on the New England coast 387
ABSTRACTS OF PAPERS PRESENTED AT THE MARINE BIOLOGICAL LABORATORY 413

No. 3, December, 1977

BERRILL, N. J.
Functional morphology and development of segmental inversion in sabellid polychaetes 453
CLARK, MARY E. AND MARYANN ZOUNES
The effects of selected cell osmolytes on the activity of lactic dehydrogenase from the euryhaline polychaete, *Nereis succinea* 468
DÍAZ, HUMBERTO AND GILBERTO RODRÍGUEZ
The branchial chamber in terrestrial crabs: a comparative study 485
FOSKETT, J. KEVIN
Osmoregulation in the larvae and adults of the grapsid crab, *Sesarma reticulatum* Say 505

HERMAN, WILLIAM S., JENS B. CARLSEN, MOGENS CHRISTENSEN, AND LARS JOSEFSSON
Evidence for an adipokinetic function of the RPCH activity present in the desert locust neuroendocrine system 527
KURIS, ARMAND M. AND JAMES T. CARLTON
Description of a new species, *Crangon handi,* and new genus, *Lissocrangon,* of crangonid shrimps (Crustacea: Caridea) from the California coast, with notes on the adaptation in body shape and coloration 540
MARCUS, NANCY H.
Genetic variation within and between geographically separated populations of the sea urchin, *Arbacia punctulata* 560
MASUDA, REIKO AND JEAN C. DAN
Studies on the annual reproductive cycle of the set urchin and the acid phosphatase activity of relict ova 577
NIJHOUT, H. FREDERIK
Control of antennal hair erection in male mosquitoes 591
SHICK, J. MALCOLM AND ALLEN N. LAMB
Asexual reproduction and genetic population structure in the colonizing sea anemone *Haliplanella luciae* 604
STEFANO, GEORGE B., EDWARD J. CATAPANE AND JUDITH M. STEFANO
Temperature dependent ciliary rhythmicity in *Mytilus edulis* and the effects of monoaminergic agents on its manifestation 618
WEBB, H. MARGUERITE
Eyestalk regulation of molt and vitellogenesis in *Uca pugilator* 630
INDEX TO VOLUME 153 643

INDEX

A

Acetylcholine, effect on ciliary activity in *Mytilus*, 618
from squid brain synaptosomes, 443
Acid phosphatase activity, of relict ova in sea urchin, 557
Acid rain, zooplankton fecal pellets, and global carbon budget, 427
Actin heterogeneity, in brush border, of intestinal epithelial cells, 439
Activation, of protein synthesis, in sea urchin embryo, 431
Adaptation, developmental, to predation in sabellids, 453
in body shape and coloration in shrimp, 540
Adapting light, recovery from, in *Limulus* ventral photoreceptors, 424
Adipokinetic hormone, in locusts, 527
Aequipectin irradians, muscle, nonfibrillar protein from, 448
Age, effect on feeding behavior of blowflies, 282
Agglutinins and lysins, in the family Planorbidae, 219
Aggregation factor, *Microciona*, binding of, to cells, 431
inhibitor, from sponge, 448
of cell populations, in *Microciona*, 417
Aggression, in sea anemone *Metridium*, 355
Algal symbionts, in hydra, 228
Allozymes, comparisons of, in wood-boring bivalves, 420
in *Littorina* spp., 255
Alpha methyl-para-tyrosine, effect on ciliary activity in *Mytilus*, 618
Amebocyte, *Limulus*, motility of, 413
Amino acid transport, in toadfish gut, 423
ANDERSON, D. T. AND C. LAWSON-KERR. The embryonic development of the marine caddis fly, *Philanisus plebeius* Walker (Trichoptera: Chathamidae), 98
Anopheles, erection of antennal hairs, 591
Antennal hairs, control of erection in *Anopheles*, 591
Anthocidaris crassispina, reproductive cycle, 557
Anthozoa, order Actinaria, aggressive behavior, 355
ANTONELLIS, B. See S. Zigman, 451
Aposymbiotic hydra, metabolism in, 228
Arbacia, egg proteases of, 421
genetic variation, 560
protein phosphorylation after fertilization, 413
spermatozoa, chymotrypsin-like enzyme in, 428
sperm histone, 426
blastulae, regeneration of cilia in, 417
eggs, effects of redox dyes on, 451
eggs, NAD kinase activity in, 449
embryos, ultrastructure of chromatin, 430
gametic fluid, ring-structures in, 422
ARISAKA, F. Effects of KCl concentration on the interaction of F-actin and tropomyosin: a sedimentation velocity study, 413
ARMSTRONG, P. B. Motility of the *Limulus* amebocyte, 413
Arylhydrocarbon hydroxylase, tissue distribution of, in crabs during molt, 377
Asexual reproduction, in a colonizing sea anemone, 604
Asteroid, brooding, seasonal patterns in, 237
Asters, role in setting up localizations of developmental potential in a nemertine, 424
Astrangia danae, light intensity and polyp size, 432
ATEMA, J. See P. Herbert, 429
AUNE, T. AND T. HUNT. Changes in protein phosphorylation following fertilization of *Arbacia punctulata* eggs, 413
Autotomy-induced delay, in cockroach molting, 145
Axon, membrane of squid giant, protein release from, 442
squid, effect of veratradine, 433
squid giant, optical method for membrane potential, 419
squid giant, sodium efflux from, 444
squid giant, sodium ions in, 419

B

Bacteria, luminescent, chitin digestion by, 421
Bacterial luciferase, structure of, 435
BALCH, N. See R. K. O'Dor, 322
BALDWIN, T. O. See E. A. Lerner, 435
BALL, E. G. Carotenoid pigments in the coxal gland of *Limulus*, 106
BARKALOW, D. See A. Farmanfarmaian, 423
BARLOW, R. B., JR., S. C. CHAMBERLAIN, AND E. KAPLAN. Efferent inputs and serotonin enhance the sensitivity of the *Limulus* lateral eye, 414
BARLOW, R. B., JR. See S. C. Chamberlain, 418
BAUMGOLD, J. See H. Pant, 442
BEACH, D. See H. S. Wiley, 449

BEAN, C. P. Theory of a method for determination of sperm motility, 414
BEAN, C. P. See A. Lopo, 437
Behavior, feeding and chemoreception, in blue crabs, 346
feeding, in blowfly, 282
aggressive, in anemone, 355
BENNETT, M. V. L. See Z. Ne'eman, 441
Bensonia monticola, digestive gland and calcium storage, 369
Benthic sediment, community respiration of, 418
BERGER, E. Gene-enzyme variation in three sympatric species of *Littorina*. II. The Roscoff population, with a note on the origin of North American *L. littorea*, 255
BERNARD, G. D. AND D. G. STAVENGA. The pupillary response of flies as an optical probe for determining spectral sensitivities of retinular cells in completely intact animals, 415
BERNARD, G. D. See M. V. Srinivasan, 445
BERRILL, N. J. Dwarfism in a sabellid polychaete, a study of an interstitial species, 113
BERRILL, N. J. Functional morphology and development of segmental inversion in sabellid polychaetes, 453
Bioenergetics, of decomposition, 443
Biomechanics, of water-pumping, by *Chaetopterus*, 121
Biomphalaria, presence of agglutinins in various strains of, 219
BIRCHARD, G. F., L. DROLET, AND L. H. MANTEL. The effect of reduced salinity on respiration and heart rate in the Calico crab, *Ovalipes ocellatus*, 415
Bivalves, wood-boring, genetic similarity of, 420
Blaberidae, endocrine events in molting of, 145
Blastulae, of *Arbacia*, regeneration of cilia in, 417
Blattellidae, endocrine events in molting of, 145
Blattidae, endocrine events in molting of, 145
Blood cells, of marine species, marginal band system in, 420
Blowfly, feeding behavior, 282
Blue crab, changes in a mixed function oxygenase during molt, 377
chemoreception, 346
Body shape, adaptation in shrimp, 540
BONE, Q. See G. O. Mackie, 180
BOOTHBY, M., K. TATCHELL, AND K. E. VAN HOLDE. Micrococcal DNAase studies on *Spisula solidissima* chromatin structure, 416
BORGESE, T. A., J. HARRINGTON, AND R. NAGEL. Oxygen-hemoglobin relationships in the killifish, *Fundulus heteroclitus*, 416
Brain synaptosomes, squid, acetylcholine from, 443
Brain tubulin, dogfish, structure, 434
Branchial chambers, in terrestrial crabs, 485
Branchiomma nigromaculata, structural function of the external features, 453
BROWN, S. C. Biomechanics of water-pumping by *Chaetopterus variopedatus* Renier: kinetics and hydrodynamics, 121
Brush borders, of intestinal epithelial cells, actin heterogeneity in, 439
Bufo marinus, diffusion of photopigments in rod outer segments, 450
Bulinus species, presence of hemolymph agglutinins in, 219
Bullhead catfish, olfactory discrimination of sex, 429
BURGER, M. M. See W. Burkart, 417; J. E. Jumblatt, 431
BURKART, W. AND M. M. BURGER. Studies on cell populations from the marine sponge *Microciona prolifera* separated by Ficoll gradients, 417
BURNS, R. The regeneration of cilia of *Arbacia punctulata* blastulae, 417
Butterfly eye, effects of temperature on pupillary response, 445

C

Ca^{++}, effect on low-resistance junctions in *Chironomus* salivary gland cells, 449
Carcinus maenas, osmotic regulation, 437
Caddis fly, marine, embryology of, 98
Calcification, molluscan, 369
Calcium, during development in echinoderms and teleosts, 432
storage in molluscs, 369
presynaptic currents, in squid stellate ganglion, 436
Callinectes sapidus, chemoreception, 346
tissue distribution of arylhydrocarbon hydroxylase in, during molt, 377
Caloric requirements, of green hydra, 228
Carbon, dark uptake rate, 423
additional sink for carbon cycle, 427
flow, organic, in ocean, 441
CARLSEN, J. B. See W. S. Herman, 527
CARLTON, J. T. See A. M. Kuris, 540
Carotenoids, in *Limulus* coxal gland, 106
CATAPANE, E. J. See G. B. Stefano, 618
CAVANAUGH, C. M. AND B. J. PETERSON. Community respiration rates of marine mud and sand sediments near Woods Hole, Massachusetts, 418
Cecropia, JH and vitellogenin synthesis, 336
Cells, blood of marine species, marginal band system in, 420

populations and aggregation, in *Microciona*, 417
solutes and enzyme function, in *Nereis*, 468
Cerebratulus lacteus, early gut formation, 424
Chaetopterus, as a compound single-acting transfer pump, 121
CHAMBERLAIN, S. C. AND R. B. BARLOW, JR. Morphological correlates of efferent circadian activity and light adaptation in the *Limulus* lateral eye, 418
CHAMBERLAIN, S. C. See R. B. Barlow, Jr., 414
CHANG, D. C. Voltage clamp studies of chemical driving force of sodium ions at nerve excitation, 419
CHARLTON, J. S. See A. Fein, 424
Chathamidae, embryology of, 98
Chemoreception, in *Callinectes sapidus*, 346
Chemotaxis, in sperm-egg jelly interaction, 437
Chironomus salivary gland, effect of hypertonic sucrose and Ca^{++} on electrical uncoupling, 449
Chitin digestion, by luminescent bacteria, 421
CHRISTENSEN, M. See W. S. Herman, 527
Chromatin, ultrastructure of, from *Arbacia* embryos, 430
structure, in *Spisula solidissima*, 416
Chromatography, thin layer and column, used to analyze carotenoids, 106
Chymotrypsin-like enzyme, in sea urchin spermatozoa, 428
Cilia regeneration, in *Arbacia* blastulae, 417
Ciliary activity and monoamines, in *Mytilus*, 618
Circadian activity, and light adaptation, in *Limulus* lateral eye, 418
pigment movements, optics of, 446
CLARK, M. E. AND M. ZOUNES. The effects of selected cell osmolytes on the activity of lactate dehydrogenase from the euryhaline polychaete, *Nereis succinea*, 468
Clinal variation, of *Arbacia*, 560
Cockroach molting, autotomy-induced delay in, 145
Coelenterates, aggression, 355
development, 198
Coelomocytes, sea urchin, morphological transformation of, 423
Coexistence, in hermit crab species ensemble, 133
COHEN, L. B., K. KAMINO, S. LESHER, C. H. WANG, A. S. WAGGONER, AND A. GRINVALD. Possible improvements in optical methods for monitoring membrane potential, 419
COHEN, W. D., I. NEMHAUSER, AND R. JAEGER. Rapid visualization of the marginal band system in blood cells of marine species, 420
COLE, T. J. AND R. D. TURNER. Genetic similarities of wood-boring bivalves (Pholadidae and Teredinidae) based on comparisons of allozymes, 420
COLLINS, Y., A. KEYNAN, AND J. W. HASTINGS. A study of chitin digestion by luminescent bacteria, 421
Comanthus japonica, fertilization membrane, 299
Community, sand-flat, effects of *Polinices duplicatus* predation on a, 450
structure in salt marsh, 435
Compound eyes, optics of, 446
Conducting epithelia, in salps, 180
Coral, light intensity and polyp size, 432
Cornea DNA repair, in dogfish ocular tissue, 451
COSTELLO, W. J. See C. K. Govind, 427; F. Lang, 434
Coxal gland, *Limulus*, carotenoids in, 106
Crabs, Calico, effect of reduced salinity on respiration and heart rate, 415
terrestrial, branchial chambers in, 485
larvae, osmoregulation, 505
salinity responses of, 163
Crangon handi, n. sp., description and taxonomy, 540
Crangonid shrimps, generic revision of, 540
Crayfish motor axons, intracellular recording from terminal aborization, 425
Crinoidea, fertilization membrane, 299
Crustacea larvae, osmoregulation, 505
salinity responses of, 163
Cryptic coloration, and body shape adaptation, in shrimp, 540
CSERNANSKY, J. G., G. A. ROSMAN, A. GROSSMAN, M. ZIMMERMAN, AND W. TROLL. Egg proteases of *Arbacia punctulata:* evidence for a new elastase-like enzyme, 421
CSERNANSKY, J. G. See E. S. Harris, 428
CUMMINS, C. AND T. HUNT. Characterization of messenger ribonucleoprotein particles from the sea urchin *Lytechinus pictus*, 422
Cyathostoma, ultrastructure of intestinal epithelium, 436
Cytotoxicity, of dogfish phagocytes, to *Arbacia* eggs, 449

D

DAN, J. C. See R. Masuda, 557
Dark carbon, uptake rate, 423
DEBENEDICTIS, P. A. Studies in the dynamics of genetically variable populations. II. Growth of experimental populations of *Drosophila melanogaster* experiencing intense natural selection, 265
Decomposition, bioenergetics of, 443

DENTLER, W. L. Mysterious ring-shaped particles from *Arbacia* gametic fluid, 422
DEPAMPHILIS, C. W. AND P. D. SMITH. Dark carbon uptake rate: its change with time as estimated with the ^{14}C method, 423
DEPAMPHILIS, C. W. See P. D. Smith, 445
Depolarization, in squid axon, by veratridine, 433
Detritus decomposition, of *Spartina alterniflora*, 435
Development, in *Pennaria*, 198
Developmental biology, of sabellid polychaetes, 453
Diadumene leucolena, population structure and geographic distribution of, 604
Diapause, effect on feeding behavior of blowfly, 282
Differentiation, in *Pennaria*, 198
Digestion, chitin, by luminescent bacteria, 421
Digestive gland, molluscan, in calcium regulation, 369
5,6-Dihydroxytryptamine, effect on ciliary activity in *Mytilus*, 618
Dimorphic claws, lobster, muscle of, 427
fibers, in lobster claw, 434
Dissociation, of cell populations, in *Microciona*, 417
DIAZ, H. AND G. RODRIGUEZ. The branchial chamber in terrestrial crabs: a comparative study, 485
Diurnal cycle, in *Ulva* photosynthesis, 440
Dogfish, brain tubulin, structure of, 434
ocular tissue, lens protein aging and cornea DNA repair, 451
phagocytes, action on *Arbacia* eggs, 449
Dopaminergic agents, effects on ciliary activity in *Mytilus*, 618
DROLET, L. See G. F. Birchard, 415
Drosophila melanogaster, population growth and selection, 265
DUBOIS, L. See E. H. Michelson, 219
DUNHAM, P. See G. Weissmann, 449
DURWARD, R. D. See R. K. O'Dor, 322
Dwarfism, in a sabellid polychaete, 113
Dyes, redox, effects on sea urchin eggs, 451

E

Ecdysis, and ovarian development, effect of eyestalk removal on, in crab, 630
Ecdysone, titer, during molting cycle of cockroach, 145
Echinoderms, calcium during development, 432
fertilization membrane of a crinoid, 299
Ectodermal ultrastructure, of a larval hydrozoan, 198
EDDS, K. T. Induction of a morphological transformation in coelomocytes from *Lytechinus* and *Strongylocentrotus*, 423
Efferent inputs, and sensitivity of *Limulus* lateral eye, 414
Egg, sea urchin, effects of redox dyes on, 451
jelly, crinoid, morphogenetic role of, 299
jelly-sperm interaction, 437
proteases, of *Arbacia*, 421
EISEN, A. See D. P. Kiehart, 432
Electron microscopy, of intestinal epithelium of *Strongylus edentatus*, 436
of embryos and planula, of *Pennaria*, 198
of embryonic fibers in *Limulus*, 426
of chromatin from *Arbacia* embryos, 430
of sea urchin ovary, 557
snail hemocytes with trematode parasites, 433
Electrophoresis, microacrylamide gel, of *Arbacia*, 560
Elongation factor 1, in toadfish liver, effect of thyroid hormone on, 442
Embryology of marine caddis fly, 98
Embryonic fibers, *Limulus*, ultrastructure, 426
Ensemble, species, of hermit crabs, 133
EPEL, D. See A. Lopo, 437; H. S. Wiley, 449
Epithelia, salp, impulse conduction in, 180
Epithelio-muscle cells, of *Pennaria*, 198
Eye, butterfly, effect of temperature on pupillary response, 445
Limulus lateral, circadian activity and light adaptation in, 418
Limulus lateral, sensitivity in, 414

F

F-actin, interaction with tropomyosin, 413
Fabricinae, reproduction and growth in species of, 113
FARMANFARMAIAN, A., M. V. ROBINSON, AND D. BARKALOW. Amino acid stimulated ATPases exhibiting transport specificities in the intestine of the toadfish, *Opsanus tau*, 423
Feeding, detection of stimuli, in blue crabs, 346
behavior, blowfly, 282
FEIN, A. AND J. S. CHARLTON. Decreased extracellular sodium prolongs recovery from adapting light in *Limulus* ventral photoreceptors, 424
FEIN, A. See M. Hanani, 428
Fertilization membrane formation in a crinoid echinoderm, 299
Fibers, dimorphic, in lobster claw, 434
Fine-structure, of a gymnoblastic hydroid, 198

Spisula solidissima, chromatin structure and packaging, 416
tropomyosin, structure, 430
Sponge, aggregation inhibitor, 448
aggregation of cell populations, 417
Squid, brain synaptosomes, acetylcholine from, 443
giant axon, effect of veratridine, 433
giant axon, optical method for membrane potential, 419
giant axon, sodium efflux from, 444
giant axon, sodium ions in, 419
giant axon membrane, protein release from, 442
maintenance and maturation, 322

metacestodes from, 387, 447
stellate ganglion, presynaptic calcium currents, 436
SRINIVASAN, M. V., G. D. BERNARD, AND D. G. STAVENGA. Effects of temperature on the pupillary response of the butterfly eye, 445
STRACHER, A. See D. R. van der Westhuyzen, 448
Starfish, hosts to embryos of marine caddis fly, 98
STAVENGA, D. G. Optics of compound eyes and circadian pigment movements studied by pseudopupil observations *in vivo*, 446
STAVENGA, D. G. See G. D. Bernard, 415; M. V. Srinivasan, 445
STEFANO, G. B., E. J. CATAPANE, AND J. M. STEFANO. Temperature dependent ciliary rhythmicity in *Mytilus edulis* and the effects of monoaminergic agents on its manifestation, 618
Steiracrangon, generic revision, 540
Stenotomus chrysops, ultrastructure of cornea, 428
STEPHENS, R. E. Primary structural differences distinguish cytoplasmic and central pair from outer doublet tubulins, 446
STOFFOLANO, J. G., Jr. See S. L. Greenberg, 282
Strongylocentrotus, morphological transformation of coelomocytes from, 423
sperm flagella, structure, 446
Strongylus edentatus, ultrastructure of intestinal epithelium, 436
STUNKARD, H. W. Studies on tetraphyllidean and tetrarhynchidean metacestodes from squids taken on the New England coast, 387
STUNKARD, H. W. Tetraphyllidean and tetrarhynchidean metacestodes from squid, *Loligo pealei* Lesueur, 1821, 447
Sugars, role in inhibiting snail agglutinins, 219
SUGIMORI, M. See R. Llinas, 436
Surf clam, tropomyosin, structure, 430
SUSAN, S. See C. V. Harding, 428
Symbionts, algal, in hydra, 228
Sympathomimetics, effect on mosquito antennae, 591
Synaptic vesicle membrane, in photoreceptor terminals of skate retina, 443
Synaptosomes, squid brain, acetylcholine from, 443

T

TASAKI, I. See H. Pant, 442
TATCHELL, K. See M. Boothby, 416
TECHNER, L. See G. Weissmann, 449
Teleost, calcium during development, 432
ultrastructure of cornea, 428
Temperature, effect on protein synthesis in *Opsanus tau*, 438
effect on pupillary response of butterfly eye, 445
effect on rhythmicity in ciliary activity of *Mytilus*, 618
Temporal variation, in *Littorina* spp. populations, 255
Tentacles, catch, aggressive function in anemones, 355
TERAKAWA, S. See H. Pant, 442
Teredinidae, and Pholadidae, genetic similarities, 420
Tetraphyllidean metacestodes, from squid, 387
Tetrarhynchidean metacestodes, from squid, 387
Thaliacea, swimming patterns and muscle physiology in, 180
THOMAS, M. B. See V. J. Martin, 198
Thyroid hormone, effect on elongation factor 1, in toadfish liver, 442
TIETJEN, J. H. See J. J. Lee, 435
Tight junctions, in *Fundulus* blastulae cells, 441
Toadfish, transport specificities in gut of, 423
liver, effect of thyroid hormone on elongation factor 1, 442
TONEILLI, Q. AND T. HUNT. Studies on messenger RNA template activity during early development of *Lytechinus pictus*, 447
Transport specificities, in gut of toadfish, 423
Trichoptera, marine, embryology of, 98
TROLL, W. See J. G. Csernansky, 421; E. S. Harris, 428
Tropomyosin, interaction with F-actin, 413
structure in surf clam, 430
Trout, protein metabolism in, 444
Trychodactylidae, branchial chambers in, 485
Tube-house, of *Chaetopterus*, as water-conducting cylinder, 121
Tubicolous worm, reproduction and growth in, 113
Tubulin, from dogfish brain, structure, 434
Tunicata, salp behavioral physiology, 180
TURNER, R. D. See T. J. Cole, 420

U

Uca pugilator, regulation of molt and vitellogenesis, 630
Ultrastructure, of chromatin from *Arbacia* embryo, 430
of cornea in *Stenotomus chrysops*, 428
of crinoid fertilization membrane, 299
of embryonic fibers in *Limulus*, 426
of embryos and planula, of *Pennaria*, 198
of intestinal epithelium of *Strongylus edentatus*, 436
of sea urchin ovary, 557
snail hemocytes with trematode parasites, 433

Ulva, diurnal cycle of photosynthesis, 440
Uptake rate, of dark carbon, 423

V

VALIELA, I. See T. Goldberg, 426
VAN DER WESTHUYZEN, D. R., A. STRACHER, AND D. A. FISCHMAN. Studies of the predominant nonfibrillar protein from scallop muscle: purification and properties, 448
VAN HOLDE, K. E. See M. Boothby, 416; G. B. Howze, 430
Veratridine, effect on squid axon, 433
Vitellogenesis, eyestalk regulation of, in *Uca pugilator*, 630
Vitellogenin synthesis and JH, in Cecropia, 336
Voltage clamp, studies of Na^+ ion chemical driving force in squid axon, 419

W

WAGGONER, A. S. See L. B. Cohen, 419
WALKER, J. W. AND T. HUMPHREYS. Isolation of an inhibitor of sponge aggregation factor, 448
WALTON, K. See R. Llinas, 436
WANG, C. H. See L. B. Cohen, 419
Water-pumping, by *Chaetopterus*, 121
Wave frequency, in *Limulus* ventral photoreceptors, 428
WEBB, H. M. Eyestalk regulation of molt and vitellogenesis in *Uca pugilator*, 630
WEISSMANN, G., M. FINKELSTEIN, R. QUINN, L. TECHNER, AND P. DUNHAM. Attack of *Arbacia* eggs by dogfish phagocytes: a model of immune injury, 449
WHITE, B. N. See R. L. Pardy, 228
WILEY, H. S., R. N. JOHNSTON, D. BEACH, AND D. EPEL. Studies of the change in NAD kinase activity during the activation of eggs of *Arbacia punctulata*, 449
WILLIAMS, E. H. AND B. ROSE. Sucrose-mediated uncoupling in *Chironomus* salivary gland delayed by Ca^{++}, 449
WILLIAMS, T. P., E. F. MACNICHOL, JR., AND H. E. JOHNSON. Lateral diffusion of photopigments in the outer segments of rods of *Bufo marinus*, 450
WILTSE, W. I. Effects of predation by *Polinices duplicatus* (Gastropoda: Naticidae) on a sand-flat community, 450
WOODWELL, G. M. See C. A. S. Hall, 427
Work output, by *Chaetopterus*, 121
WORLEY, E. K., D. R. FRANZ, AND G. HENDLER. Seasonal patterns of gametogenesis in a North Atlantic brooding asteroid, *Leptasterias tenera*, 237
Worm, tubicolous, reproduction and growth in, 113

X

Xenopus, retinotectal patterns in, 430

Y

YULO, T. AND S. ZIGMAN. Studies of dogfish (*Mustelus canis*) ocular tissues: lens protein aging and cornea DNA repair, 451

Z

ZIGMAN, S., B. ANTONELLIS, AND S. F. ZIGMAN. The effects of redox dyes on growth and development of sea urchin (*Arbacia punctulata*) eggs, 451
ZIGMAN, S. See T. Yulo, 451
ZIMMERMAN, M. See J. G. Csernansky, 421; E. S. Harris, 428
Zooplankton fecal pellets, acid rain, and global carbon budget, 427
ZOUNES, M. See M. E. Clark, 468
